### **DETAILED ACTION**

This Office Action is in response to amendments/arguments filed 12/12/2008. Currently, claims 4, 6-11, and 14 are pending in the instant application & are allowed.

#### ***Specification***

The incorporation of essential material in the specification by reference to an unpublished U.S. application, foreign application or patent, or to a publication is improper. Applicant is required to amend the disclosure to include the material incorporated by reference, if the material is relied upon to overcome any objection, rejection, or other requirement imposed by the Office. The amendment must be accompanied by a statement executed by the applicant, or a practitioner representing the applicant, stating that the material being inserted is the material previously incorporated by reference and that the amendment contains no new matter. 37 CFR 1.57(f). The continuing data needs to be mentioned in the first paragraph of the specification, including 371 data.

#### ***Allowable Subject Matter***

Claims 4, 6-11, and 14 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance: The prior art of record does not fairly teach or suggest a walker frame having a set of collinear apertures and a slot, wherein the apertures are substantially coplanar; as well as, each aperture being shaped so the stud can be passed head first therethrough.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
